FULTON COUNTY TRIBUNE

EENYON & WEIR - - PUBLISHERS at the Post Office in Wauscon, Ohio,

APPLE YIELD IS SHORT.

Lovers of apples will get slight encouragement from the report on the crop condition made Tuesday by Normal E. Shaw, chief orchard inspector of the state agricultural commission. There will be almost no early apples this year, and the winter apple crop will be about half of normal, owing to the June drouth, he predicted.

This year's cherry crop is a record-breaker. It is larger by 75 per cent. than last year's production, and far above the average.

Orchard inspectors will start tomorrow on their tours of the state to determine disease conditions and take measures to prevent their spread. Reports by the agricultural department state that the 17-year locusts, which infested the eastern part of the state this year, are about gone. They die after planting their eggs. These will not develop until 1951.

FREE SCHOLARSHIP. Agriculture of the Ohio State University are no longer awarded by Conuty Agricultural Associations but are awarded by the State Agricultural Commission. The Board of Trastees of the Ohio State University has established two types of free scholarship: The first, scholarship good for the short courses, three years, in Agriculture and Horticulture, and the second type of free scholarship good for the four years courses in the College of Agriculture in Agriculture, Horticulture, Forestry, and Home Economics. Que three year scholarship is asigned to each county in the State each year and are awarded by the Agricultural Commission as prizes in the Junior contest work conducted by the Commission. This scholarship is awarded in each county to the contestant who must be at least 17 years old, either boy or girl, who stands highest in the contest in which there are the great eat number of entries, the scholarships are not transferable and must be used the first year they become available. These scholarships cover the registration fees; about \$20.00 a year or \$120.00 for the four years; five of these awarded to each of the four districts of the state as designated by the Superintendent of Public Instruction for the supervision of Agricultural Education in the public schools. These, scholorships are awarded by competitive examinations to be conducted under the management of the Supervisor of Agricultural Education in each district, ineach first and second grade high schools. Information concerning these scholarships may be secured by writing Dean H. C. Price, College of writing Dean H. C. Price, College of sity are no longer awarded by uty Agricultural Associations but
